As metal classification

- REACH dossier: submitted 19 Feb 2018
  - Harmonised classification CLP
  - Self-classification
    - Massive
    - Powder

21 March 2018
As metal classification

- **Harmonised** classification arsenic metal
  - Acute Tox 3 (oral) H301: Toxic if swallowed.
  - Acute Tox 3 (inhalation) H331: Toxic if inhaled.
  - Aquatic Acute 1 H400: Very toxic to aquatic life.
  - Aquatic Chronic 1 H410: Very toxic to aquatic life with long lasting effects.

- This does not differentiate between massive/powder.

Hazard pictograms:

- DANGER
As metal classification

- **Self-classification** – **massive**
  - Acute Tox 3 (oral)  
    - H301: Toxic if swallowed.
  - Acute Tox 3 (inhalation)  
    - H331: Toxic if inhaled.
  - Aquatic Acute 1  
    - H400: Very toxic to aquatic life.
  - Aquatic Chronic 1  
    - H410: Very toxic to aquatic life with long lasting effects.
  - Carc 1A  
    - H350: May cause cancer

Hazard pictograms: 

[![Hazard pictograms](image)](image)
As metal labeling massive

- **Self-labeling – massive**

  H301+H331: Toxic if swallowed or inhaled.
  H350: May cause cancer
  H410: Very toxic to aquatic life with long lasting effects

  P201: Obtain special instructions before use.
  P273: Avoid release to the environment.
  P280: Wear protective gloves/protective clothing/eye protection/face protection.
  P301+P310: IF SWALLOWED: Immediately call a POISON CENTER/doctor/…
  P308 + P313: IF exposed or concerned: Get medical advice/attention.
  P403+P233: Store in a well-ventilated place. Keep container tightly closed.
As metal classification

- **Self-classification - powder**
  - Acute Tox 3 (oral)
  - Acute Tox 3 (inhalation)
  - Skin irritant 2
  - Eye damage 1
  - Aquatic Acute 1
  - Aquatic Chronic 1
  - Carc 1A

Hazard pictograms:

<table>
<thead>
<tr>
<th>Pictogram</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><img src="" alt="Pictogram" /></td>
<td>DANGER</td>
</tr>
</tbody>
</table>

H301: Toxic if swallowed.
H331: Toxic if inhaled.
H315: Causes skin irritation.
H318: Causes serious eye damage.
H400: Very toxic to aquatic life.
H410: Very toxic to aquatic life with long lasting effects.
H350: May cause cancer.

5 March 2018
Self-labeling – powder

H301+H331: Toxic if swallowed or inhaled.
H315: Causes skin irritation.
H318: Causes serious eye damage
H350: May cause cancer
H410: Very toxic to aquatic life with long lasting effects

P201: Obtain special instructions before use.
P273: Avoid release to the environment.
P280: Wear protective gloves/protective clothing/eye protection/face protection.
P305+P351+P338: IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.
P308+P313: IF exposed or concerned: Get medical advice/attention.
P403+P233: Store in a well-ventilated place. Keep container tightly closed.
As metal C&L

- Self – classification = effect immediately
- Lead registrant has already adapted labels + SDS
- MECLAS – info provided
- No M-factors
- Impurities – Carc 1A triggered if >= 0.1% As present
